

580 Series

TYPE & FUNCTION:	2/2 NC
TYPICAL MODELS & FLOWRATE:	DOX588.10DC2KK 180 l/min X 8 @ 5 bar
TYPICAL APPLICATIONS:	Sorting, separation and recycling equipments. Used as a stand alone module with n.8 inline outlets with a pitch of 9mm and 180 l/min each, it is particularly indicated for seeds sorting equipments. The application fields are the same as the 850 Series but with the outlets inline that may simplify the development of a sorting manifold made by the customer.
ADVANTAGES:	Compact dimensions, lightweight High flowrate values Short response times Insensitiveness to frequency work and vibrations Low power consumption Precision, repetitiveness and modularity Long operating life (up to 500 cycles)
